

# Sprint 1 Stakeholder Status Report

**Sprint Duration:** June 22 – July 2, 2025  
**Project:** Kotlin Android + Spring Boot Demo with CI/CD  
**Tech Lead:** Eric Cheung

---

## Summary of Accomplishments

- ✓ Android app UI prototype (Jetpack Compose)
  - ✓ Spring Boot REST API prototype
  - ✓ CI/CD pipeline with GitHub Actions
  - ✓ README with architecture and deployment details
  - ✓ Daily updates via GitHub Issues
  - ✓ Initial integration between frontend and backend
  - ✓ GitHub Project board established
- 

## Current Risks & Challenges

Area	Risk Description	Mitigation Strategy
CI/CD integration	Limited time to fully automate test coverage	Focus on MVP testing & document gaps
Team Simulation	Solo project; lacks real multi-dev interactions	Used role-based doc + GitHub Issues to simulate collaboration

---

## Next Sprint Goals (Sprint 2)

- Add unit tests and coverage reporting
  - Build form UI for issue creation
  - Enable pagination for API responses
  - Write weekly stakeholder update
- 

## Notes

- All source code and pipeline files are in: [GitHub Repo](#)
  - Sprint documents and team setup in /docs/ folder
-
